

Microsoft Word 2013, Part 2 of 4: Selecting, Searching and Formatting

page 1

Meet the expert: LeeAnne McManus is a nationally renowned trainer, facilitator, and productivity expert who has conducted thousands of sessions over the past decade. While widely recognized for helping end-users, departments, and organizations learn how to maximize their software products, most notably Office 365 and Adobe, LeeAnne also facilitates sessions to enhance productivity and performance through soft skills development. Her professional background includes Human Resources, Operations, and Talent and Development.

Prerequisites: This course assumes that students are familiar with the basic use of Windows and common use of the mouse and keyboard. No prior experience with Word is assumed.

Runtime: 01:25:33

Course description: Even longtime users of Word may have challenges selecting and formatting content in light of the extensive changes made to the user interface of Word 2013. Accordingly, in this course LeeAnne McManus will focus on how to format and search for content in Word 2013.
